# Our Commitment

As part of our continued efforts to provide the most comprehensive sales & support materials in the industry, AG/BZN has developed the *Play Book*, an in-depth guide on taking your game to the next level.

In addition to our professional experience relating to game design & product development, our extensive collaboration with several charitable organizations and bingo operators has provided us with the expertise needed to develop the most comprehensive & in-depth resource to complement our extensive product lines.

Arrow Games/Bazaar & Novelty released the *Play Book* in May 2007 with the intent to provide licensees and bingo centres with new, innovative game ideas, tips and tools, regulatory information, and other helpful information and resources to improve their bingo events. Since then, there have been regular updates to each section of the *Play Book* in an effort to assist you in developing new bingo programs, evaluating your competition, and better understanding your customers in order to improve the overall player experience.

## Game Samples

The *Play Book* is a source for new game ideas for bingo centre operators

## Evaluation Tools

Evaluate competition and get a better understanding of your customers

## General Information

Rules, probability tables, customer service, regulatory rules, etc...

To view, download or print the *Play Book*, visit [arrowgames.com](http://arrowgames.com) or ask your customer service representative for more information

# Our Partnerships

Arrow Games / Bazaar & Novelty has developed mutually beneficial partnerships with leading organizations across Canada to support fundraising efforts through the sale of charitable gaming products.

## Canadian Tire Jumpstart

*Canadian Tire Jumpstart* is a national charitable program that assists financially disadvantaged kids with the costs related to sports and physical activity programming such as registration, equipment and/or transportation. AG/BZN proudly supplies break open tickets to Canadian Tire Jumpstart Charities that are sold in over 120 Canadian Tire Petroleum locations across Ontario as part of a unique partnership between Jumpstart and Canadian Tire Petroleum. [jumpstart.canadiantire.ca](http://jumpstart.canadiantire.ca)

## HELPP Program

Since 1989, the *Hospital Equipment Lottery Project for People* (HELPP) has supported local community health care projects in Ontario, Alberta and Nova Scotia. Local hospital auxiliaries are able to raise funds through the sale of AG/BZN's unique HELPP break open ticket. These ticket sale proceeds are donated back to the hospitals to support the purchase of medical equipment and other health care needs. [arrowgames.com/help](http://arrowgames.com/help)

## The Royal Canadian Legion

AG / BZN is the proud supplier of charitable gaming products and services to branches in the Alberta-NWT Command and the Ontario Command of *The Royal Canadian Legion*. Through these unique partnerships, proceeds from sales of AG/BZN's products and services help to support the Legion's mission of serving Veterans, their families, and communities throughout Alberta, Ontario & the Maritimes. # Bingo Paper Terminology

## AUDIT NUMBER ①

A consecutive number printed on each bingo book that is used to quickly track sales and inventory.

## BARCODE ②

Contains information about each bingo booklet including serial number, audit number, paper type, series, pages per book, and page number.

## BOOKLET / PACK

A group of specific numbered bingo sheets of different colours that are collated together all containing the same number of faces to be played for each game at a bingo session. They are collated in the order in which they will be played.

## COLLATIONS

A tablet or pad of bingo sheets arranged in a specific colour sequence. Available in either standard or customized rotations.

## COLOUR ③

The colour used on the bingo face that identifies which game is being played. Colour can refer to a border, a tint or a solid coloured sheet.

## CUT

Indicates the overall appearance of the sheet of faces. A cut may be square, horizontal or vertical.

## FACE/CARD ④

An individual bingo card containing 24 numbers plus the free space number.

## FREE SPACE NUMBER ⑤

A number located in the free space square that identifies the unique bingo face and enables a winning face to be verified electronically or manually.

## GAME PATTERN

A combination of squares which must be completed in order to win a bingo game.

## LOOSE PAPER

Bingo paper that is sold individually that is not collated into books or pads. Also referred to as *Case Paper & Straight Goods*.

## ON ⑥

The number of bingo faces per sheet. For example, a 3 ON has 3 faces per sheet.

## PADDED

Bingo paper that is glued together into booklets in order to provide more control than loose paper. Sold as a full series in one colour, and usually in pads of 25.

## SERIAL NUMBER ⑦

A number printed on the "N" of "BINGO" on each bingo face to identify a particular printed set and is primarily used to keep unauthorized paper out of the game.

## HELPFUL INFORMATION

UP × Series =  
Faces per Set

Series ÷ ON =  
Books per Set

UP × ON =  
Faces per Book

## SERIES

Identifies the cards in play by the different range of 9,000 cards.  
Example: 1 - 9,000; 9,001 - 18,000; 18,001 - 27,000 ... 99,001 - 99,036.

## SERIES SYMBOL ⑧

A unique symbol located on every bingo face (in certain series) in the "O" of "BINGO" that is used to easily identify each series. See *UniMax symbols on page 18*.

## SESSION

An entire evening or daytime bingo program, consisting of a series of regular and/or special bingo games.

## SET

Refers to 9,000 bingo faces numbered in sequence and uniform colour.

## SPECIAL

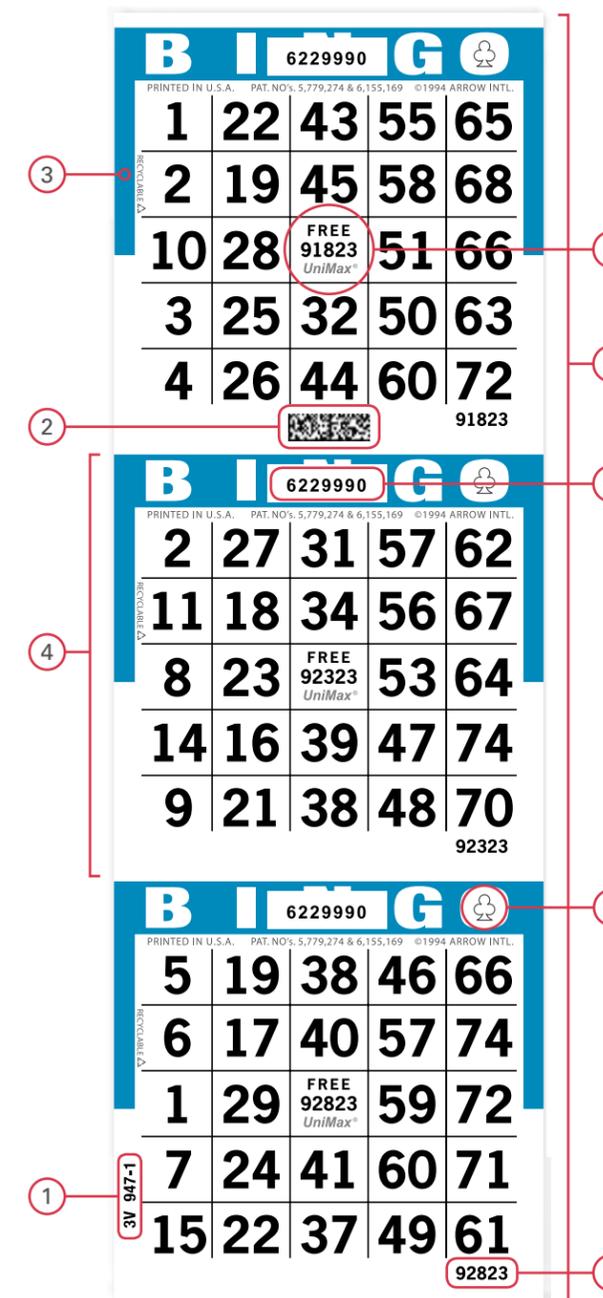

A game played with a different set of cards than the pack purchased at admission.

## UP

The number of sheets in a booklet.

## VERIFICATION NUMBER ⑨

The unique number located on each bingo face that identifies a unique 24-number configuration. It is the same number as the *Free Space Number* and is also referred to as the *Secondary Free Space Number*.

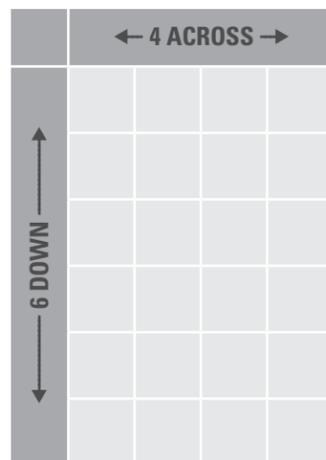

# Bingo Paper Cuts

Bingo paper is printed in a variety of master sheet configurations to give hall operators & players plenty of options to choose from. Different layouts are made available when the bingo paper is cut from a master sheet.

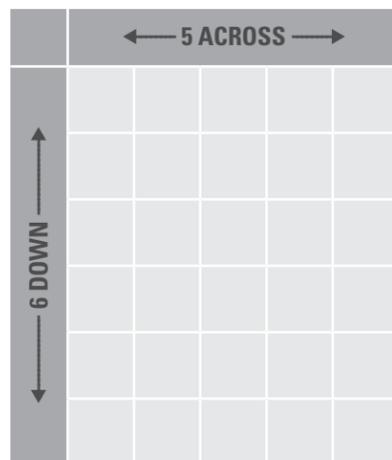

Choose from a single card (1S1) up to a full 36 ON (36S6) sheet (36 cards). Combine different cuts and colors with the different series to add variety and excitement to your bingo sessions.

The following are examples of master sheet sizes: a 24 ON layout has 24 bingo faces on a sheet, a 30 ON layout has 30 faces on a sheet and a 36 ON layout has 36 faces on a sheet.

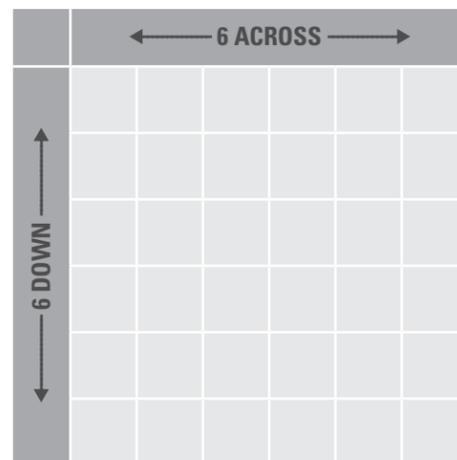

## 24 ON (24V4)

## 30 ON (30V5)

## 36 ON (36S6)

## OFF-CUTS

Certain cuts come naturally from certain master sheets; other cuts (as in a 15H5 taken from a 36 ON layout) require an off-cut, which can be packed together, separately, or discarded.

An off-cut refers to bingo faces that remain when a master sheet is cut into a desired ON. For instance, if the master sheet is a 24 ON vertical and you order a 9 ON sheet, the result will be two (2) 9 ON cuts equaling 18 faces, and an off-cut totaling six (6) faces to complete the 24 faces on the sheet.

## Paper Cut Examples

### 24V4 Master Sheet

CUT	LAYOUT	# DOWN	# ACROSS
3V1	vertical	3	1
4S2	square	2	2
6V2	vertical	3	2
8H4	horizontal	2	4
12H4	horizontal	3	4
24V4	vertical	6	4

### 30V4 Master Sheet

CUT	LAYOUT	# DOWN	# ACROSS
5H5	horizontal	1	5
10H5	horizontal	2	5
15H5	horizontal	3	5
30V5	vertical	6	5

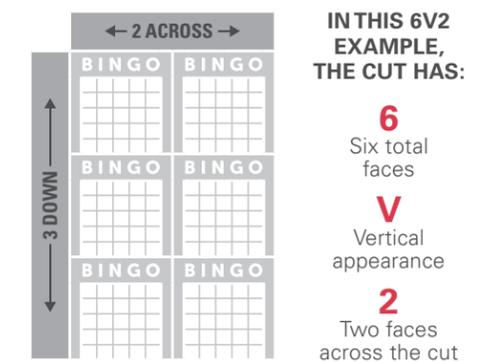

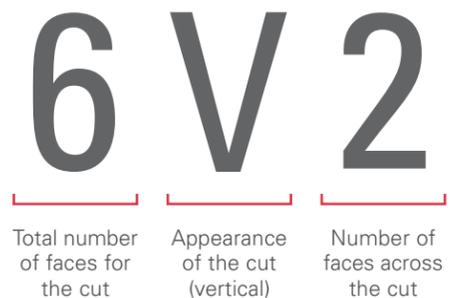

### 36S6 Master Sheet

CUT	LAYOUT	# DOWN	# ACROSS
3V1	vertical	3	1
3H3	horizontal	1	3
4S2	square	2	2
6V2	vertical	3	2
6H3	horizontal	2	3
9S3	square	3	3
18H6	horizontal	3	6
36S6	square	6	6

## Paper Cut Descriptions

In each cut description, the first numeric character(s) denotes the total number of faces on that particular cut; the second alpha character denotes the overall appearance of the cut: vertical, horizontal or square (V, H or S); and the last numeric character denotes the number of faces across / horizontally on the cut.

# UniMax

## THE COMPLETE SOLUTION

UniMax® bingo paper offers maximum security, integrity and game control. A single, common serial number throughout a collated set of books makes tracking serial numbers easier than ever.

Arrow's Player Preferred® UniMax bingo paper was developed with game operators *and* players in mind. With more Player Preferred series than any other line of bingo paper, UniMax allows players to dab more often, keeping them excited and more involved.

### The Industry Standard

With innovative features like a common serial number, Auditrack and the Player Preferred series, UniMax has set the industry standard.

### Variety and Flexibility

UniMax is available in eight series. With so many options to choose from, you can find the right series to fit all your bingo needs.

### Maximum Security

With a barcode printed on every sheet, UniMax offers more integrity, accuracy, efficiency and game control than ever before.

### One Serial Number Per Set

UniMax simplifies tracking & virtually eliminates players from using bingo paper from another game or session.

### Player Preferred Advantage

Arrow's Player Preferred series increases player involvement with more dabbing, excitement and fun!

### Machine Collation

Machine collation provides a standard colour rotation, offers shorter lead times and reduces manufacturing errors.

# UniMax Bingo Paper

THE COMPLETE BINGO SOLUTION

## Common Serial #s

Serial numbers are the same on every face of every book within a unique set for added security & simplified tracking.

## Auditrac™ System

UniMax® booklets are consecutively numbered for quick and accurate sales and inventory tracking.

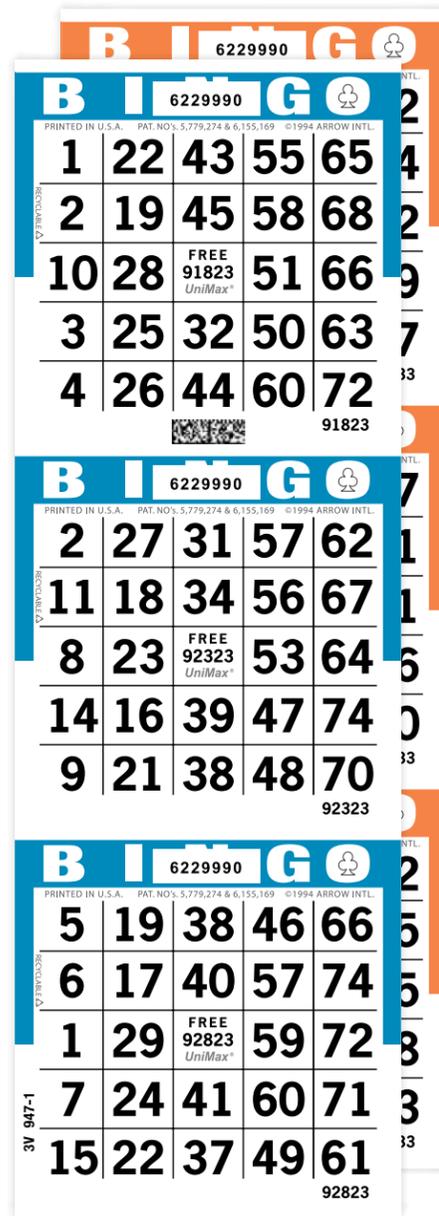

## Series Identification

Each series of UniMax contains a unique symbol in the "O" of "BINGO" for easy series identification.

## Maximum Security

A 2D barcode is printed on every sheet of UniMax that contains important information about each booklet.

## The UniMax Advantage

It's the industry standard for a good reason - UniMax offers so much more than unique audit features & superior playability characteristics.

### Standard Color Rotation

Game operators and players will know exactly what to expect every time.

### Extra Booklets in Each Set

Earn extra profits with the extra booklets provided in each set.

### No Wax Sheet

Eliminate waste and reduce weight. UniMax is printed on higher quality paper, so a wax sheet isn't required to keep ink from leaking through.

### Clean, Easy to Read Face

UniMax paper is whiter and brighter, and the half border design gives the numbers a larger & bolder appearance.

### Short Lead Times

With orders already on the shelf and ready to ship, UniMax offers the shortest lead times of any bingo paper – 72 hours from order receipt to shipment. Plus, there's no minimum order requirements!

## Player Preferred Series

UniMax's Player Preferred® series allows players to dab more often with an improved distribution of numbers. Players are more involved in the game while feeling the excitement of being close to a bingo!

### Designed for the Player

Bingo players want to be actively involved in every bingo game. They enjoy plenty of excitement and suspense as they come closer to a bingo, and this is exactly what the UniMax® Player Preferred series offers. You keep players happy and involved, and they'll keep returning to your game!

- › All 75 bingo numbers appear at least once on every 6V2, and at least twice on every 9S3
- › All 75 numbers also appear at least once on every 4S2 (60,001-69,036 series) and 8H4 (70,001-79,096 series)
- › All 75 numbers appear at least twice on every 12H4 (70,001-79,096 series), and at least three times with a B, I, G and O

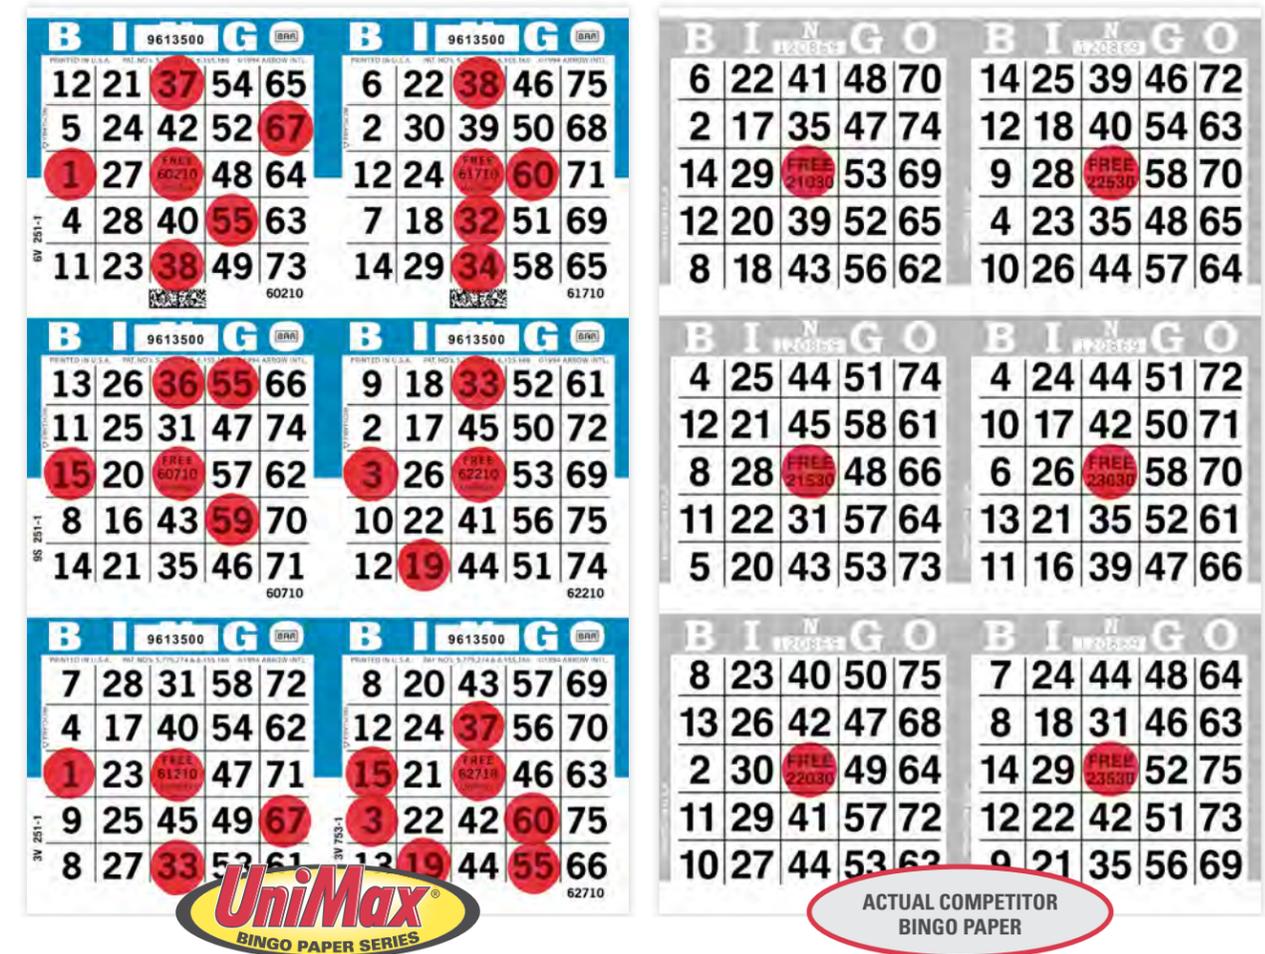

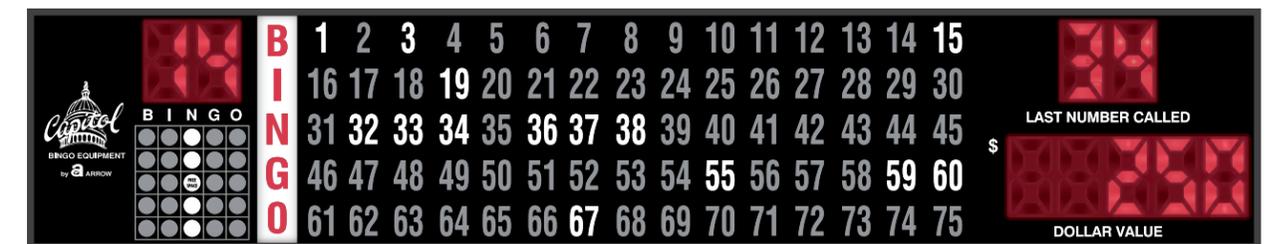

UniMax has more  
Player Preferred series  
than any other paper!

- 1 60,001 - 69,036
- 2 70,001 - 79,096
- 3 80,001 - 89,036
- 4 90,001 - 99,036

More dabbing means more fun for bingo players and increased sales of paper and bingo markers for operators

More game involvement, excitement and action draws new players and keeps regular player interest high

The Player Preferred® UniMax has at least one dab for each of the first 14 numbers called, and it's only one number away from winning! The other paper is still waiting for its first dab.

With more action and excitement compared to regular bingo paper, it's easy to see why UniMax® is preferred by players everywhere!

## Audittrack System Advantage

Arrow's Audittrack™ System will help to simplify the tracking of sales. As paper sales and profits grow, Audittrack provides an easy method of maintaining reliable & secure accounting of each session's sales.

### Audittrack Sales & Inventory Tracking

For most paper cuts, each bingo sheet is printed with an audit number. At the end of each session, subtract the original starting number from the audit number on the first remaining book, and you will know the exact number of books sold by each floor person.

#### EXAMPLE

You begin a session with books that run from 1,501 to 1,600. At the end of the session, the top book is 1,588. When you subtract 1,501 (the starting audit number) from 1,588 (the ending audit number), you can calculate that 87 books were sold for that session. To determine total sales, simply multiply the 87 books sold by the selling price.

The audit number now includes a page number and is printed on every page of a booklet. Cuts are identified with a prefix before each audit number.

**6V 251 - 1**

### Calculating Sales & Inventory

With consecutive audit numbers, calculating your sales and inventory has never been easier.

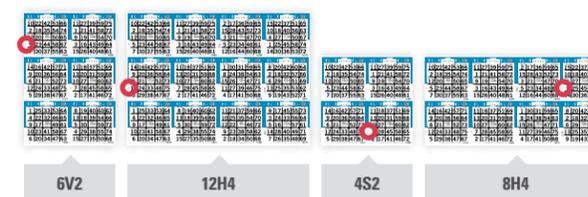

Arrow's exclusive Audittrack™ System is available with the following UniMax® bingo paper cut selections.

# UNIMAX BINGO PAPER

## Maximum Security Features

Protect your profits with the innovative security features of UniMax®! There are four main security features to use when operating a game:

### 1 Border Colour

The border colour used on the bingo face identifies which game is currently being played.

### 2 Serial Number

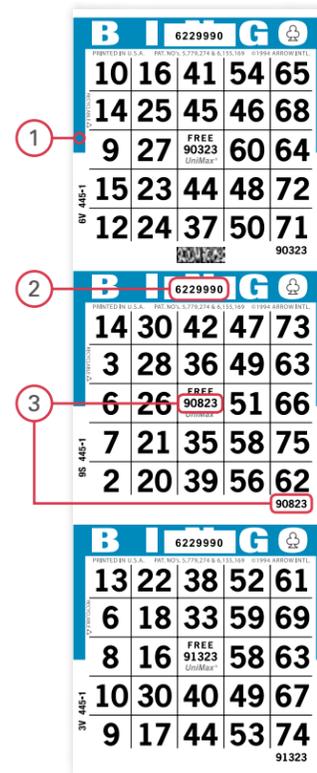

This number should be posted at the beginning of each session to indicate the serial number that is currently being played..

### 3 Card Verification Number

The unique number is printed on each bingo face and is used to identify the 24 number face configuration of the B,I,N,G,O numbers printed. It is used in electronic or manual verification to determine if a face is a valid winner for the current game.

### 4 Paper Series

Identifies the cards in play by the different range of 9,000 cards.

All four items should be used as part of your process to verify a winning bingo card. When the floor workers are verifying the bingo card, the caller should ask what **series** the paper is, what the **border colour** is to determine that the winning face is the correct game in the program, what the **serial number** is to determine that the series was sold on the floor for the session, and finally, the **card verification number** to ensure the proper game pattern is the winner (either through electronic verification or verbal call back of the winning pattern).

UniMax has a state-of-the-art 2D barcode printed on every sheet that contains important information about each bingo booklet:

- › Serial Number
- › Paper Type
- › Page Number
- › Audit Number
- › Series
- › Pages per Book

## Maximum Integrity, Accuracy, Efficiency and Security

The 2D barcode printed on every sheet of UniMax can be used by a P.O.S. system to quickly and accurately identify the product for faster and more efficient sales. This is an incredible benefit to those bingo operators using a P.O.S. system capable of barcode scanning during sales of UniMax booklets.

Booklet sales and accounting will be faster and more accurate, allowing operators to streamline their sales and get players into the bingo game faster and more efficiently. The additional integrity that this process offers will not only be a benefit to operators and bingo players, but to distributors as well.

## UniMax Packaging

Each carton of UniMax includes a label with a barcode for quick access to information including paper series and audit numbers.

UniMax booklets are packed sequentially in boxes by audit number; all products are inspected prior to being put into cartons.

## Matching Case Paper

Games can now match specials with their UniMax® game pack!

Operators can easily increase their profits simply by turning a regular game into a special, slightly increasing the payout, and then adding Case Paper as floor sales for the game. Your players will often buy extra faces in order to increase their chances of winning the larger prize!

- › Unique UniMax borders and stripes
- › Case Paper will not duplicate any of the sheets in collated UniMax booklets
- › Available as loose sheets or padded into booklets of 25; one color per case
- › Actual face size: 4" W x 4" H

## Alternate Stock Collations

Great for Early Bird, Night Owl, or any other special games!

Alternate stock collations of UniMax® are available in unique colour rotations with distinctive horizontal striped borders that help players differentiate special games from their regular UniMax bingo paper.

In addition to helping players identify an early bird, night owl, or any other special game, alternate stock collations of UniMax can be used in conjunction with standard colour rotation UniMax when playing with different payout levels.

Ask your UniMax sales representative for a list of available special colour rotations.

# UNIMAX BINGO PAPER Selecting the Right Series

1

Begin by listing each cut used at your hall, starting with the most popular cut at the top of your list

2

With the most popular cut used, locate the column in the table below that corresponds to that cut

3

Using that column, locate the smallest number corresponding to a UniMax bingo paper series

4

Write down the UniMax series selected for that cut and cross out the entire row corresponding to that series

5

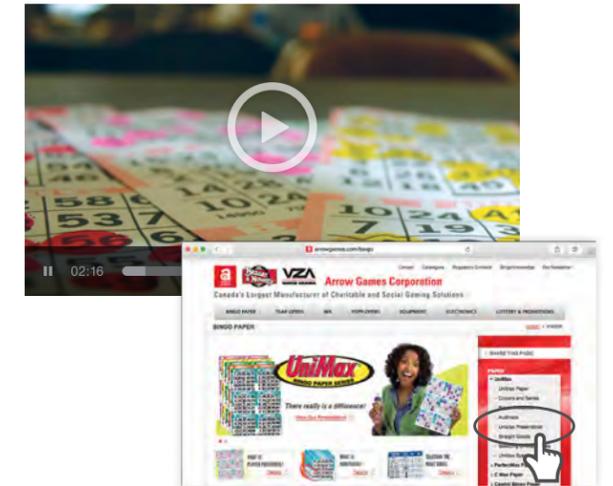

Repeat steps 3 & 4 for the remaining cuts, making sure not to duplicate a series that has already been crossed out

## THE PERFECT CHOICE

PerfectMax™ Mark "75" Bingo Paper gives bingo players major action and excitement with play that's twice as fast as typical bingo paper, and gives everyone an equal chance to win!

### The Mark "75" Advantage

All 75 numbers appear once on every 3V1 sheet. Each time a number is called, every player gets in on the dabbing action.

### Common Serial Number

You can now effortlessly track serial numbers and easily identify illegal bingo paper and potential missed revenue.

### Exclusive Auditrack System

With Auditrack™, PerfectMax booklets are consecutively numbered to provide quick and accurate sales and inventory tracking.

### Case Paper & Special Collations

PerfectMax Case Paper and Special Collations are great for Early Bird, Night Owl and other special games.

## The PerfectMax Game Advantage

PerfectMax offers many of the same benefits of UniMax®. But when players prefer Mark "75" over random paper, it's the *perfect* choice!

### Series Variety

Choose from six different series with 24V4, 30V5 and 36S6 layouts.

### Multiple Book Sizes

PerfectMax is available in multiple sizes, ranging from 4 to 24 pages, always with 3V1 cuts and multiples thereof.

### No Wax Sheet

Eliminate waste and reduce weight. PerfectMax is printed on higher quality paper, so a wax sheet isn't required to keep ink from leaking through.

### Machine Collation

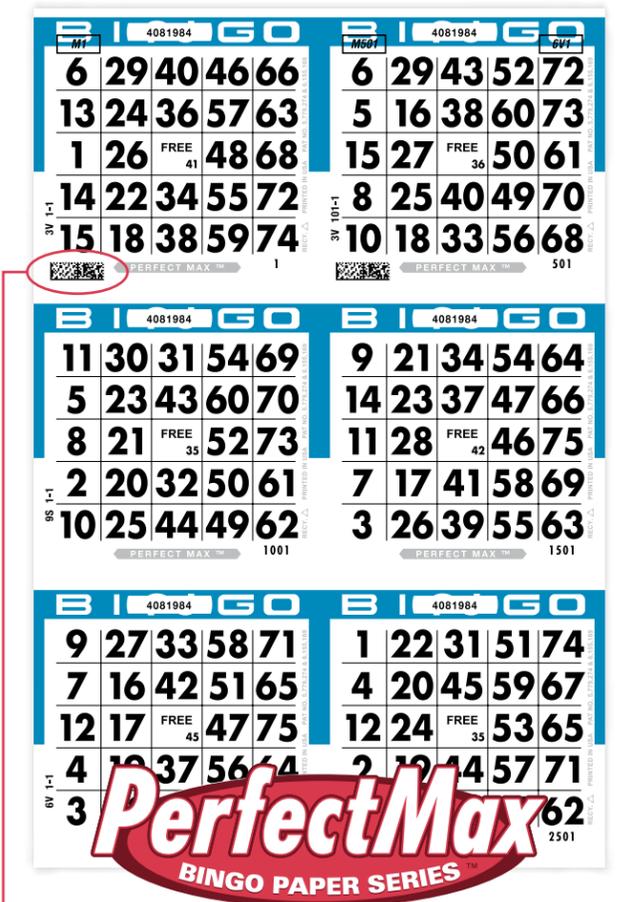

Offers shorter lead times and reduced manufacturing errors such as torn sheets, missing pages, and wrong colours.

### Standard Colour Rotation

Because PerfectMax has a standard colour rotation, it's always available and ready to ship, which means faster turnaround times. Plus, operators and bingo players will know exactly what to expect every time.

### Clean, Easy to Read Face

PerfectMax is printed on paper that's whiter and brighter than standard bingo paper. The unique half border design makes numbers appear larger, bolder and easier to read.

### NEW! 2D Barcode

PerfectMax now features a state-of-the-art 2D barcode that can be scanned by a POS system to quickly and accurately identify important information about each bingo booklet for faster and more efficient sales!

# CAPITOL

## CUSTOM COLLATED PAPER

Not only does AG/BZN offer the versatility of our complete 54,000 Capitol® bingo paper series, we also offer the collations and variety of colours to meet the needs of any game. Why do we offer so many options? The answer is quite simple. Every bingo game has its own unique requirements. Capitol bingo paper offers customization and flexibility when it comes to choosing the series and paper type that's appropriate for your specific games.

Capitol paper collations are ideally suited for customized rotations. When collations are required in a standard rotation, go with UniMax®!

### Versatility and Flexibility

Collations in book form allow game operators to provide a wide variety of game packages to players.

### Player Preferred Advantage

Offer the action, suspense and excitement that players prefer with our Capitol Player Preferred® series!

### Exclusive Auditrack™ System

Simplify the tracking of sales with Auditrack's reliable, secure accounting of each session's sales.

### Custom Collations

Custom create your own paper sequence or combination of patterns, colours, and specialty papers.

### Player Preferred Series

All 75 bingo numbers appear at least twice on every 9S3 in our 36,001-45,000 and 45,001-54,000 series.

### Specialty & Novelty Papers

Add innovative twists to your game with our large selection of specialty and novelty bingo paper.

# Capitol

## CUSTOM COLLATED BINGO PAPER

Add innovative twists to your bingo game with custom collations! Capitol® bingo paper has 54,000 unique bingo faces available in six different series and a variety of cuts. And with over 30 colours & styles to choose from, Capitol paper is sure to meet the needs of any game!

With our Capitol bingo paper, we've made it easy to create a custom paper sequence or combination of colours & specialty papers.

Capitol paper is available with our standard borders, screen tints and solid colours to provide a variety of ways that booklets can be created. Mix and match styles for both specials and extra sales.

Many of our specialty, novelty and pattern papers can also be included in collations for a truly unique take on a bingo game.

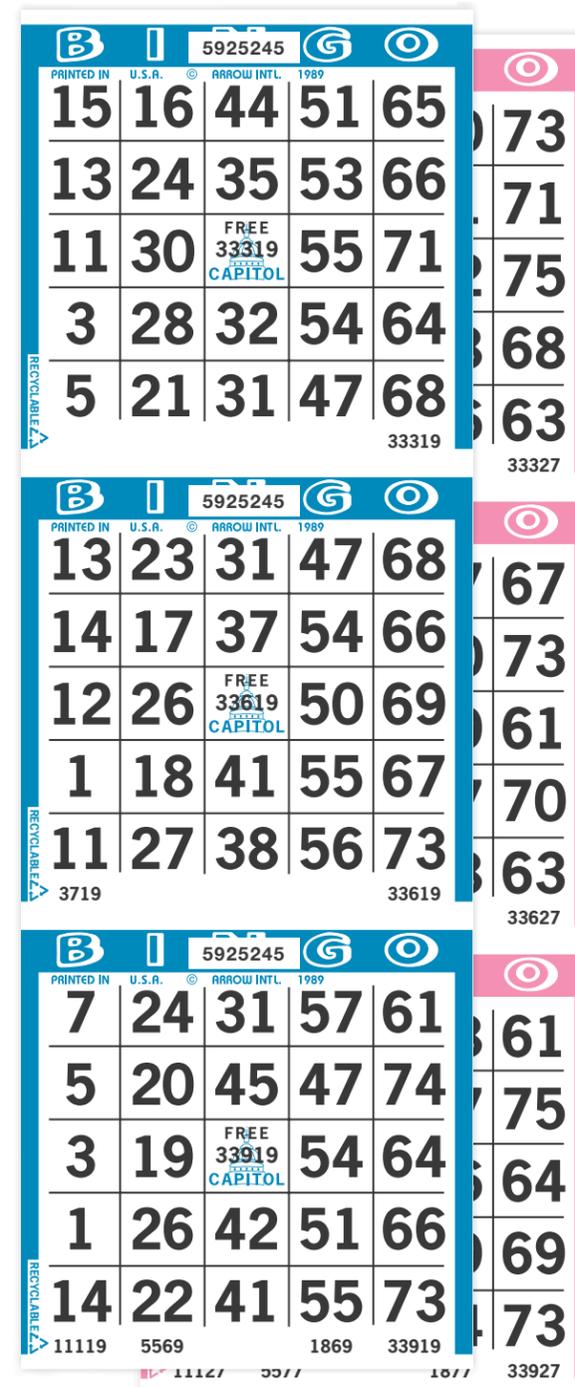

By collating bingo paper into booklet form, game operators are able to provide a wide variety of different game packages to keep players engaged.

Each game can have its own colour sheet so that floor workers can always be sure that every player is using the correct sheet for the game being played.

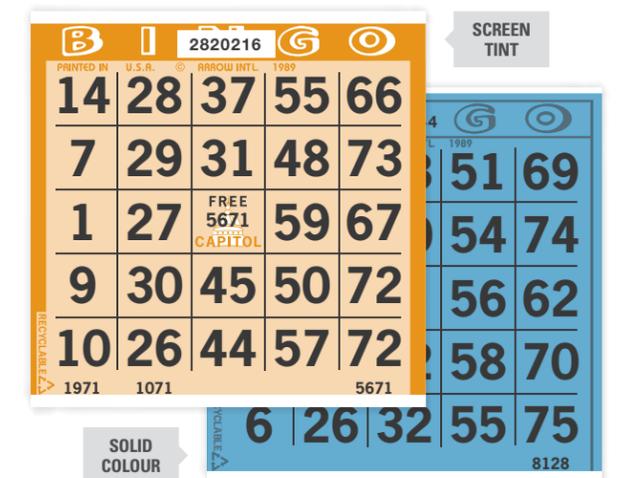

What does it all mean? More enjoyment for players, better control for game operators, and, of course, more profits!

## Audittrack System Advantage

Each sheet of Capitol is imprinted with an audit number. At the end of each session, subtract the original starting number from the audit number on the first remaining book, and you will know the exact number of books sold by each floor person.

### EXAMPLE

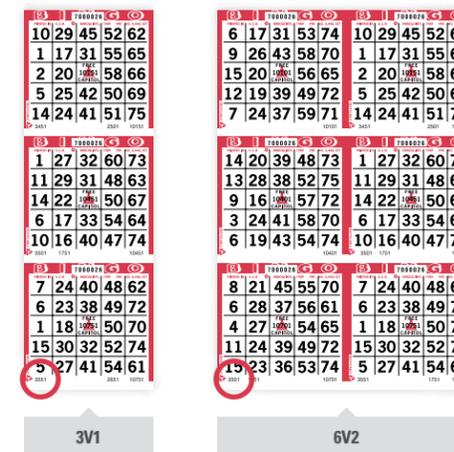

A seller's books run from 1,501 to 1,600 at the beginning of the session. At the end of the session, the top book is 1,588; this means  $1,588 - 1,501 = 87$  books were sold. Simply multiply the 87 books by the selling price, and the sales are instantly calculated. It's that easy!

## STRAIGHT GOODS & COLLATIONS

AG/BZN carries a large selection of specialty and novelty bingo paper that can be used to create a variety of exciting & unique bingo games. Create your own custom paper sequence or different combinations of patterns, colours, and specialty papers.

# Barber Pole™

Great for specials or for identifying different buy-in packs on the floor while keeping the colour of each game consistent for all players.

Barber Pole bingo paper will add flexibility and variety to any bingo game. A diagonal stripe design runs down each side of the bingo face, just like a barber's pole!

Barber Pole makes it easy for operators to identify different buy-in packs on the floor without the need for different colour paper.

- › Great for bingo games with different buy-in amounts and different prize levels
- › Use as additional buy-in sheets for your regular bingo program, or with a special Capitol paper collation
- › Available as loose sheets or padded into booklets of 25; one color per case

### Capitol Spectrum™

Bring added excitement to your game with three different prize levels on every sheet — players have the opportunity to bingo on any level!

--	--	--

Operators, floor workers and players can easily determine what prize amount is won.

With other tiered games, only players who purchase the most expensive buy-in have a chance to win the top prize. Spectrum generates excitement by giving everyone a chance to win big!

### Predetermined Odds

You control the odds with Spectrum paper! Offer your players a larger top prize while reducing your average payout at the same time. Players will spend more to win more!

EXAMPLE: ODDS OF WINNING WITH 18 ON SPECTRUM			
LEVEL	BORDER COLOURS	# OF FACES	ODDS
1	○ Solid White	9	50%
2	● Green Border	6	33%
3	● Red Border	3	17%

Spectrum's predetermined odds remain constant with any pure horizontal cut, so desired average payouts can be determined quickly. For example, players may play to win \$100 on Level 1 (50% odds), \$200 on Level 2 (33% odds) and \$1,000 on Level 3 (17% odds). Players get a chance to win a top prize of \$1,000, yet your average payout is only \$283 per game. That's less than the average payout of a competitive program offering \$300 per game.

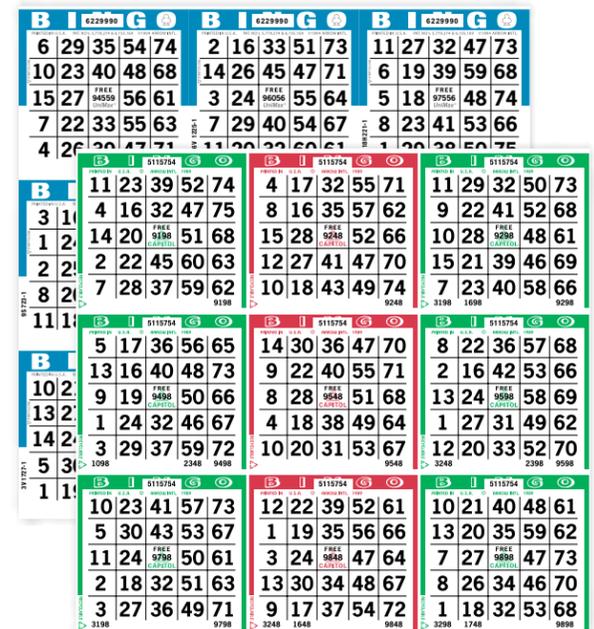

### Capitol Double Spectrum™

Double Spectrum is designed to be played in conjunction with standard rotation UniMax® to create additional sales and increase your profits!

Set up a three-tier payout structure (similar to Spectrum) using standard UniMax for the Level 1 payout, and Double Spectrum for the Level 2 and Level 3 payouts.

Structure initial buy-in packages at various discount levels to increase your sales.

### Horizon™

Take advantage of the many ways to play Horizon bingo paper to add variety and excitement to your game while increasing your profits!

Horizon is a multi-coloured bingo paper that can be used to create multiple prize levels for a bingo game. There are two different colour combinations to choose from:

#### Horizon Option 1:

● Gold / ● Green / ● Red

#### Horizon Option 2:

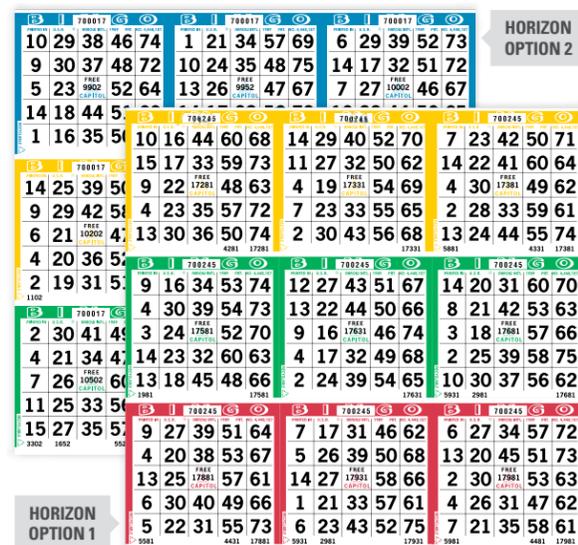

● Blue / ● Gold / ● Green

The border coloured faces run horizontally across each sheet of bingo paper, which is a great benefit for vertical cuts!

For a fun way to play, create a game with three different prize levels using any game pattern. For example, with Option 1:

- › Gold face colour: single bingo pays \$1x
- › Green face colour: single bingo pays \$2x
- › Red face colour: single bingo pays \$3x

## Pushout™

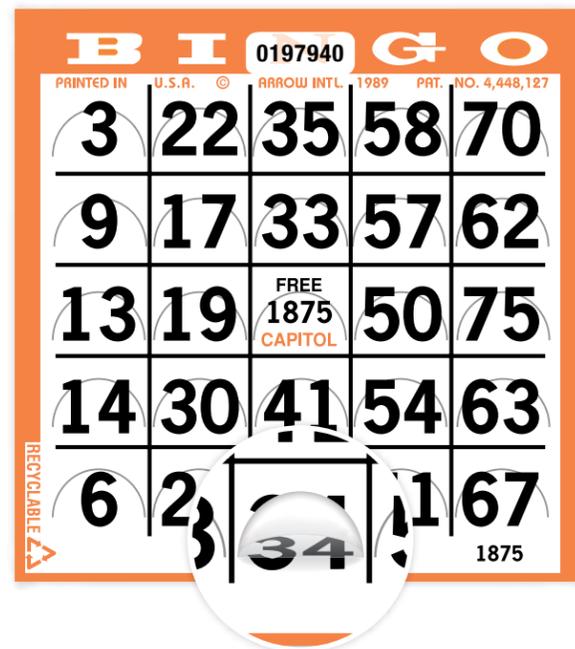

Stronger & heavier bright white stock makes Pushout paper the top choice for durability.

Pushout paper, made with a heavier paper stock, is available with or without die cuts.

Die cut Pushout paper is designed to be played without the need for a bingo ink marker. Instead of dabbing, players simply push the tab back when a number is called. This makes Pushout the perfect choice for bus trips, cruises, parties or anywhere that there may not be a table setting.

Non die cut Pushout is best used when tables and bingo ink markers are available. Even though Pushout paper was designed for unique bingo settings, it's also a great choice when a durable, heavier & brighter bingo paper is preferred!

Whether you choose to go with or without die cuts, Pushout is the brightest, sturdiest and finest quality bingo paper you'll find!

## CONCEALED BINGO PAPER

Tear-Opens™ are a unique folded and sealed type of bingo paper that prevents the face from being seen until it is sold and "torn open." Because Tear-Opens are usually played as a larger jackpot game, they're a unique and fun way to increase profits for operators while providing excitement among the players.

AG/BZN offers a large variety of Tear-Opens that are great for early bird specials, bonus and second chance games. These concealed and secure bingo papers are a great addition to any bingo program.

### Sealed, Safe and Secure

All of our Tear-Opens are folded and sealed, making them the most secure bingo paper available, and a great choice for your game!

### More Fun with Famous Characters

Bingo Players love to dab along with their favourite characters like Elvis® or the whole gang from The Wizard of Oz™!

### Boost Sales with Special Offerings

Boost sales with a "second chance" option. Offer your players the chance to trade in a sheet and buy two new sheets for the price of one.

## Casino Bingo™

Casino Bingo provides a fun way for you to increase your profits & provide excitement for players!

Casino Bingo Tear-Opens can be sold as a coverall before a regular session starts. In a progressive jackpot game for a coverall in 50 numbers or less, the hall will have a better chance of paying out the consolation prize instead of the whole jackpot. With a progressive jackpot, the longer the jackpot is held, the bigger the prize. A larger jackpot means growing attendance!

## Casino Starburst®

Combining two popular games for even more bingo fun!

Casino Starburst is a fun Tear-Opens game that players absolutely love to play! It has the same great play as Casino Bingo with an added twist! A starburst is randomly placed on each face to provide unlimited ways to play!

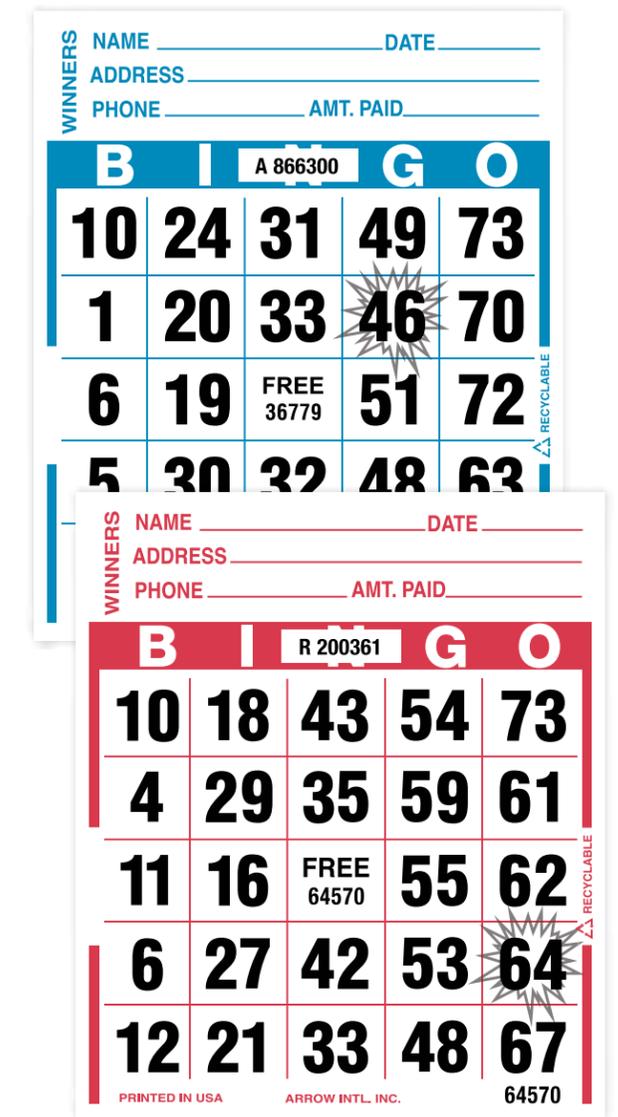

Use the starburst as an extra free space, or play the game as usual but offer a bonus prize if a player bingos on the starburst!

Casino Starburst Tear-Opens can also be played as a progressive jackpot game!

- › Sell Casino Starburst and start the jackpot at a predetermined level. If a player bingos on the starburst, the jackpot is awarded. If not, a consolation prize is awarded and an extra dollar amount is added to the jackpot.

Casino Starburst is available in two series and two border colours. Consecutive audit numbers let you calculate sales instantly!

## Bonanza Bingo®

One of Arrow's most popular, exciting & profitable games of all time!

Bonanza Bingo is printed on unique colored paper that is folded and sealed, preventing the face from being seen until it is sold and opened by the bingo player.

There are unlimited ways to play Bonanza! Try this popular method at your next game:

Call 48 numbers and post them to your Bonanza or Tear-Opens flashboard before your regular bingo session starts. Continue to sell Bonanza Bingo as floor sales until the final game of the night is completed. Based on the 48 posted numbers, a player with a coverall is awarded a jackpot prize. If there is no winner using the 48 posted numbers, call the 49th, 50th, etc., and offer a consolation prize for the eventual winner.

Increase your profits by offering a "trade in" option. If a player does not think their card has a chance of winning, they can trade it in and buy another card at half the price.

## Surprize™ Bingo

All the features of a Tear-Open in a secure, value-priced flat ticket.

Surprize Bingo offers all the same great features as traditional Tear-Opens bingo paper, but uses a unique tear off sheet.

Because Surprize Bingo doesn't fold like regular Tear-Opens, the paper will lay flat on a table or other surface. Players simply peel back the secure cover sheet to reveal the bingo face(s).

Surprize Bingo is available in six colours: blue, orange, green, yellow, red & purple. The outside of each tear off sheet matches its respective border colour.

There are two series available: 1 - 9,000 & 9,001 - 18,000, each with 1S1 & 3V1 cuts.

- › Serial numbers are printed on each face
- › Produced on a heavier paper stock

## Even Better™ Bingo

When playing Even Better Tear-Opens, players "bet" that the "even" numbers on their card will be drawn first – they're "Even Bettors!"

Even Better Bingo is similar to our regular Tear-Opens™ progressive coverall games, but with an *even better* twist!

With Even Better Bingo, you don't have to pre-call any numbers; all the odd numbers are already pre-dabbed for your players!

- › Fast-paced game played on secure and concealed Tear-Opens bingo paper.
- › Even Better can be added as a new game to your bingo session, typically near the end of your session.
- › A coverall game will be played using only the 37 even numbers in play since all of the odd numbers are FREE.
- › Players buy their cards prior to the start of the Even Better game. They then decide whether or not to keep a particular card based on how many odd numbers they have on their card.
- › Players can either keep the card and use it for the Even Better game or they can trade it in, along with the cost of an additional card, for two new cards.
- › Actual face size: 4" W × 4¾" H

# U-PIK-EM Bingo Games

Players get to choose their own luck with these unique bingo games!

With U-PIK-EM™, players pick their own numbers instead of the random selection of numbers they normally get with a pre-printed bingo face. Players often perceive the game as a lottery, picking their same "lucky" numbers each week. U-PIK-EM offers five cards to choose from.

U-PIK-EM cards are two part NCR (no carbon required) forms, each with matching card numbers. One part is used for playing, while the other part is collected by the attendants before the game begins, and then used to verify winners.

- › Serial numbers are used to identify the print set
- › Consecutive audit numbers for better control
- › Most forms can be ordered with a custom imprint of your name and logo

## Twoonie Pot

Twoonie Pot is an exciting progressive jackpot game! Usually, 50% of the jackpot is based on gross revenue. Players purchase a ballot, then turn in a copy with their information, and keep a copy. Prior to starting a bingo session, one ball is drawn, known as the *Twoonie Ball*. When the Twoonie Ball is drawn during a bingo game, the next ball to be called will be the winning ball. If a player completes a "bingo" on this call, they win the Twoonie Pot progressive amount, along with the regular session prize. If no winner occurs, the jackpot continues to grow from day to day, up to a maximum of \$5,000.

- › Item No. 6001007
- › No carbon, two-part form
- › Shrink-wrapped in 1,000's
- › 10,000 cards per set; each ticket numbered sequentially

# PULL TABS

Combine the impact of our incredibly creative and colourful graphics with our stunning variety of games and no one else can match AG/BZN's lineup of Popp-Opens® pull tabs and Charity™ break open tickets. With many different play styles, sizes, shapes, ticket counts and payout options to choose from, you're sure to find all kinds of winners!

Search & browse through thousands of pull tabs at [arrowgames.com/popp](http://arrowgames.com/popp)

# Pull Tab Tickets

AG/BZN carries both Popp-Opens® and Charity™ brand tickets – the highest quality and most creative pull tab games in the industry! Our wide variety of unique ticket themes with large, full colour symbols and exciting designs will instantly grab the attention of your players.

Pull tab tickets (often referred to as Break Open Tickets, Nevada Tickets, Lucky 7s, Bowl Games, Cherry Bells, Pickle Cards, and Instant Bingo) are a significant source of funding for several charitable clubs and organizations. Both our Popp-Opens® from Arrow Games and Charity™ Tickets from Bazaar & Novelty are fun and easy to play, providing frequent, high payouts for your players, and definite profits for operators.

While there are many types of pull tabs and ways to play, the basic concept is simple: a player opens the perforated windows on the back of the pull tab and matches the symbols on the inside of the ticket (1) to the winning combinations on the front of the ticket (2). Players with tickets containing one (or more) of the winning combinations identified on the front of the ticket win the corresponding prize amount (3).

## PULL TAB ANATOMY

Pull tabs are constructed from two layers of heavy paper. The ticket face is printed on the front and the game symbols are printed on the back of the ticket. The ticket tag is glued over the game symbols.

# Instant Win Games

Winning combinations of symbols are typically displayed horizontally within a single window. However, there are also games where winning symbols are displayed vertically or diagonally, or as a combination of horizontal, vertical and/or diagonal.

## Horizontal Match 3 Example

To win, players simply match three of the same symbols in a single horizontal row. The prize amount shown on a winning inset corresponds to the matching three symbols as shown on the ticket face.

## Criss-Cross Example

To win, players must have a combination of two matching "anchor" symbols and one winning symbol. The prize amount shown on a winning inset corresponds to the winning combination of symbols on the front of the ticket face. Games with criss-cross play may have multiple winners, where more than one winning combination occurs on a single ticket.

To search and browse through our full line of pull tab tickets by name, province, category and more, please visit [arrowgames.com/popp](https://arrowgames.com/popp)

# Bingo Event Games

Event games (also called ball or dab games) bridge the gap between bingo & pull tabs, combining the best of both into one exciting game.

A bingo event game plays just like a regular pull tab game with instant winners, but it also includes a seal card, along with tickets containing bingo ball numbers (B1 - O75) and/or "hold" numbers. Players with these tickets hold on to them for the entire game.

Once all of the tickets in a deal are sold, the bingo event game winner is determined either by using a bingo flashboard, by using the last number called in a bingo game, or by using the enclosed seal card.

Bingo event games are available in a wide variety of play styles, counts and number of holders.

## OPERATOR ADVANTAGES

**Increased revenue.** Smaller ticket counts means faster gameplay and ticket sales.

**Guaranteed profits.** The event winner is not paid out until the entire deal is sold.

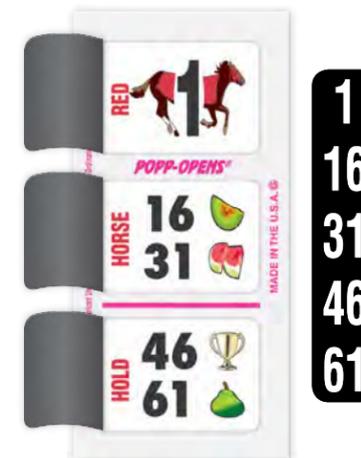

## PLAYER ADVANTAGES

**More chances to win.** Multiple sign-ups give more players an opportunity to win the large prize at the end of the game.

**Thrill!** Suspense builds until the moment when the end-of-game winner is revealed.

Providing your players with an opportunity to win additional prizes is a great way to add excitement to a bingo session. Bingo event games offer three different methods of determining winners, and will often feature one or more of the following methods within the same game:

## Downline Games

Event tickets containing the same numbers as the downlines on a flashboard. The winner is the holder of the ticket with the first downline completed in the designated bingo game.

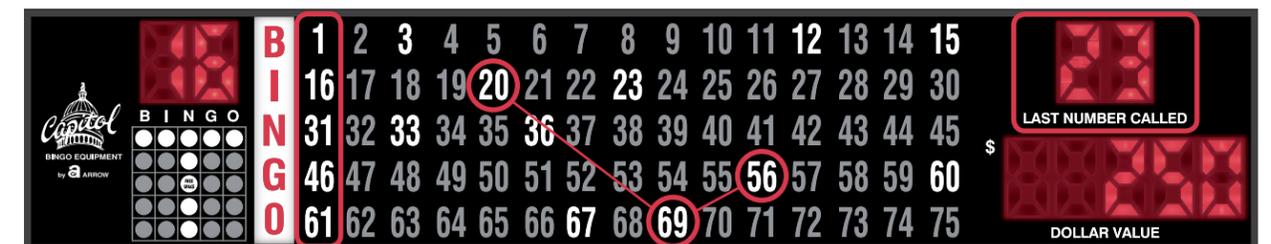

## Dab Games

Event tickets with more than one bingo number on a ticket, and the winner is the first player who dabs all the numbers on their ticket during the designated bingo game.

## Flashboard Games

Also referred to as Last Number Called Games, Flashboard Games designate a winner as the player with a hold ticket that contains the last number called in the designated bingo game.

# Seal Card Games

In addition to traditional instant win tickets, some seal card tickets will contain sign-up numbers that correspond to a seal card, giving your players additional chances to win another larger prize!

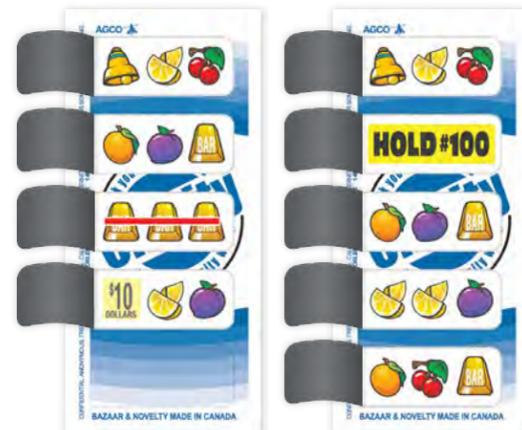

TICKET FACE

### INSTANT WINNERS

Like a traditional pull tab game, seal card games include monetary prizes paid out for a winning ticket based on a specific winning combination of symbols. Instant win prizes keep players engaged as they eagerly await their chance to win a larger seal prize.

### SEAL PRIZE WINNER

As the game is being sold, players with predetermined hold tickets (i.e. 100, 200 ... 2500) sign their name on the seal card for a chance to win the larger seal card prize.

INSTANT WIN TICKET

SIGN-UP HOLD TICKET

Seal card games include a special seal card which is used to determine the winner(s) of a larger prize(s). Typically, seal cards will have a predetermined number of signature lines that correspond to the number of sign up tickets in the deal. Players that find hold tickets may sign their name on the seal card. Once the entire deal is sold, the window on the seal card is opened by the operator to reveal the sign up number of the grand prize winner(s).

Seal card games typically offer an option to provide one large prize for a single winner or split the prize into smaller amounts for multiple winners. For example, with *Fast 100*<sup>™</sup>, there is a total of \$100 to be awarded. The operator may choose to give one player \$100, or two players \$50 each.

# Progressive Jackpot Games

AG/BZN has developed new versions of seal card and bingo event games that now include a progressive component to add a new level of winning and excitement for your players!

TICKET FACE

INSTANT WIN TICKET

HOLD TICKET

SEAL CARD

With progressive seal card or bingo event games, a portion of the total value of prizes is set aside for a prize that accumulates until it is won, increasing with every deal.

All progressive jackpot games must have an exit strategy that guarantees that the progressive jackpot will be won at some point. Common exit strategies include:

- › when the jackpot reaches a specific dollar amount
- › a specific day of the week or month
- › a specific number of games played

In the 600 count *Blazing Balls*<sup>™</sup> bingo event game shown here, tickets are sold for \$1.

In addition to instant winners, there are 25 hold tickets that contain three bingo balls (or hold numbers if playing as a seal card). The first player to dab all three numbers (or the player with a matching hold ticket) wins \$200 and gets to pick one of the ten windows on the seal card for a chance to win the accumulated progressive jackpot. The progressive jackpot starts at \$100 and continues to grow by \$100 for each deal sold where there is no winner.

# Cashboard Games

Cashboard games combine the excitement of a seal card game with instant winners and the opportunity for players to win a larger prize.

Cashboard games generally involve a larger count of 4,000 (or more) tickets, and are offered with two different styles of play. **Non-Subset Cashboard** and **Subset Cashboard** games.

## Non-Subset Cashboards

In this example, a 4,000 count game is sold in its entirety, and includes 15 sign-up hold tickets, 20 winning hold tickets, and several instant winners.

**INSTANT WINNERS**  
As players aim for the larger cashboard prizes, instant win tickets provide even more chances for players to engage in the winning experience.

**WINNING HOLD TICKETS**  
In addition to the seal winner, there are 20 winning hold tickets with numbers that correspond to the 20 windows on the cashboard. Each window contains a prize amount ranging from \$50 - \$250. Players with a winning hold ticket(s) win the prize that is revealed in the matching cashboard window.

**SIGN-UP HOLD TICKETS**  
Players with sign-up hold tickets (i.e. 413, 513 ... 1413) sign their name on the seal card. After all the winning hold tickets are paid out, the seal window is opened to reveal the winning hold number. The player with the sign-up hold ticket that matches revealed number wins the \$500 seal prize.

## Subset Cashboards

In this example, an 8,000 count game is packaged into 20 smaller, individual bags (subsets) of 400 tickets that are sold one at a time, rather than selling the entire 8,000 count game all at once. There are 20 larger prizes available to be won by players; one prize for each bag of tickets.

Each bag of 400 tickets contains a predetermined number of hold tickets, a few instant win prizes, and a small seal card.

### SUBSET HOLD TICKETS

As the subset is being sold, players with hold tickets numbered 1-15 sign their name on the seal card for a chance to advance to the cashboard.

### SUBSET SEAL CARD

After all the entire subset is sold and all the instant winning tickets are paid out, the operator opens the window on the seal card to reveal the winning hold number. The player with the sign-up hold ticket that matches the revealed number is presented with a cashboard that has 20 windows (one for each of the 400-ticket subsets), with each window having a pre-determined prize amount underneath it.

### INSTANT WINNERS

Each subset has a small number of instant win prizes to provide additional excitement.

### SUBSET CASHBOARD

Winners from each subset game select one of the available windows on the cashboard to reveal their winning prize amount. In this example, prizes range from \$100 - \$500.

# Bingo Event Promo Games

The promotional bingo event tickets shown here are unique games that offer unlimited ways to play. You set the price of the tickets, you decide the prize payout, and you determine your own profit!

## Mini Dual Dab™ A fast playing game that offers double the fun!

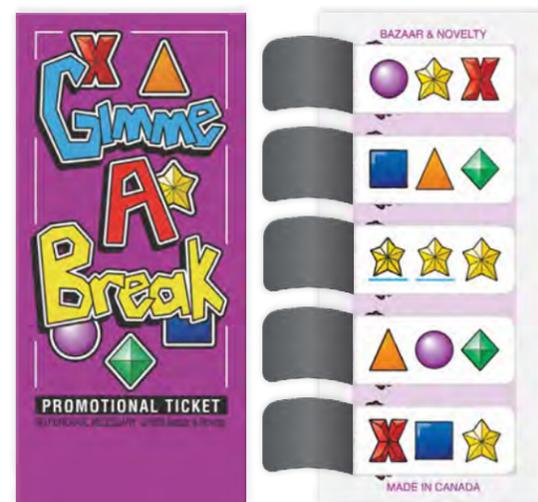

- › Players dab a space when either number in a square is called for double the chance to win!
- › Six deals of 165 tickets. Combine deals when more than 165 tickets are needed.
- › Each set of tickets has a unique serial #.
- › Six different tag colours (red, blue, green, orange, purple & black), making it easy to play and track Mini Dual Dab several times in a session.

## Gimme A Break®

A flexible game with total control!

- › 112 winners in every box of 980 tickets.
- › Complete control over the promotion cost.
- › Operators determine any discounts and set the prize amounts for each level.
- › A 9-character imprint of your choice is included for no extra charge.
- › A poster with payout information is included with each deal.

## California Tic Tac® Combining the fun of Bingo & Tic Tac Toe!

California Tic Tac is a 9-number concealed bingo ticket, available in five unique series that can be played alone or combined with a bingo session.

- › Each set has a unique serial number and is offered in six different colours so you can play several times in a session.
  - › You set the ticket price, pick the game pattern and determine your profit.
- EXAMPLE: Charge \$1 per ticket; sell all 150 tickets in the deal; offer a \$100 prize. You'll add an extra \$50 to your profits.

# Pull Tab Security Features

With both Popp-Opens® and Charity™ brand tickets to choose from, AG/BZN is your source for not only the largest selection of pull tabs, but also the highest quality and most secure tickets in the industry.

All pull tab tickets offered by AG/BZN are manufactured with multiple built-in security features, preventing potential fraud. Ticket security is continually evolving, and certain security features may vary based on location and jurisdiction.

## Protect your profits with these security features:

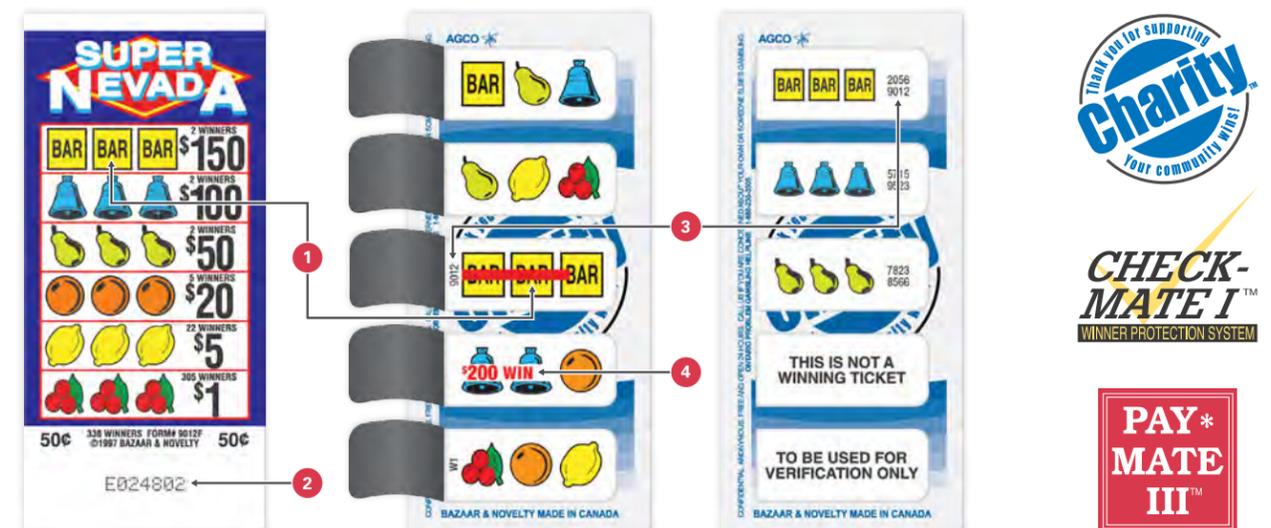

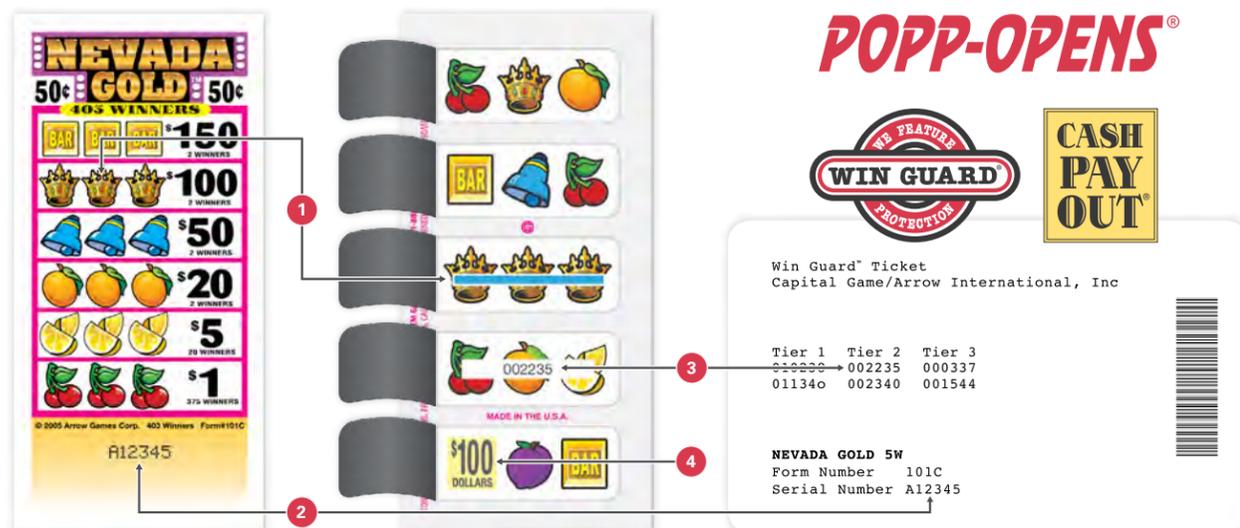

- 1 WINNING COMBINATION**  
Match the combination of symbols on winning tickets that corresponds to the tiers listed on the front of the ticket to determine the prize amount.
- 2 SERIAL NUMBER**  
Each deal contains a unique serial number and is common to all of the pieces related to the deal.
- 3 WIN GUARD/CHECKMATE**  
A protection system that identifies winning tickets by matching a random number shown on applicable tier levels to a security ticket unique to the deal.
- 4 CASH PAYOUT/PAYMATE**  
Displays the dollar amount on all winning tickets, showing players exactly what they've won.

AG/BZN, along with its parent company, Arrow International, Inc., is an active member of the *National Association of Fundraising Ticket Manufacturers* (NAFTM). As a NAFTM member, AG/BZN must comply with exacting standards of quality and security in the production of our charity pull tab tickets. We closely inspect and monitor all pull tab tickets throughout the design, manufacturing & packaging processes.

## Pull Tab Security Terminology

- DEAL/SETS**  
The number of individual deals that are packed into one case of tickets. A deal is a separate game or series of pull tabs with the same serial number.
- FORM NUMBER**  
The unique alphanumeric code that identifies the cost per play, ticket count and payout structure.
- NET PROFIT**  
The amount of money a charity will make assuming all tickets are sold all the winners are paid.
- PAYOUT STRUCTURE**  
The total ticket count, the number of winning combinations at each prize level, the collective value of all prizes to be awarded, and the profit built into the game.
- TICKET COUNT**  
The total number of pull tab tickets within a deal.
- TICKET PRICE**  
The price players pay per pull tab ticket (varies per game).
- WIN RATIO**  
The ratio of winners per number of pull tab tickets sold.

# 25¢ and 50¢ Pull Tabs

## Why should operators play more 25¢ and 50¢ tickets?

The more pull tab tickets a player opens, the better their chances are of becoming a winner! As players win, they will typically move up the scale in how much they spend. For instance, a player who often wins on 25¢ pull tabs will likely purchase 50¢ pull tabs.

### Everyone Has a Chance to Play

When disposable incomes start to shrink, money becomes tight. 25¢ & 50¢ games provide your players with a less expensive alternative to the traditional dollar games. This lower cost risk will likely encourage new players to give pull tabs a try.

### Everyone Loves a Winner

Everyone loves to see winners, and when games pay, more people play! The more chances there are for players to win, the more winners there will be, which means more players will purchase tickets.

### Small Winners Play Big

Research has shown that players who win cash prizes of less than \$5 will most likely spend their winnings instantly on another chance to win.

### More Bang for the Buck

The math is simple: \$20 will give a player twenty \$1 tickets, forty 50¢ tickets, or eighty 25¢ tickets. This means that players can play longer for the same amount of money, and they'll have double, triple or even quadruple the chances of winning.

### Players Love Variety

Increase your overall percentage of pull tab players by offering a wide variety of tickets and games at lower price points. Your sales will go up, which means more profits for your location!

### For the Fun of it!

The more tickets a player can buy for their dollar means more entertainment for the same amount of money. More tabs to pull, more chances to win, more fun!

# 25¢ & 50¢ PULL TABS OFFER LONGER PLAY & MORE FUN!

## DETERMINE YOUR QUANTITY / CHOOSE YOUR LABEL OR SLEEVE

**\*Small Quantities** (minimum 5 cases; 144 bottles per case)

Choose a label from the designs shown below. Then, customize with logos or personalized information in a black imprint. Labels are applied to standard sleeves according to ink type.

Add an emblem as part of your custom artwork (some national organizations require prior approval to use these emblems)

OR

## Large Quantities

(minimum 25,000 labels or sleeves)

A full colour label or sleeve can be custom designed by our artists according to your specifications.

Labels are applied to standard sleeves according to ink type.

Custom sleeves are shrink wrapped.

FULL COLOUR LABEL EXAMPLES

FULL COLOUR SLEEVE EXAMPLES

\*Custom bingo ink program requires a five case minimum order (all regular ink orders must be a minimum of ten cases, so custom orders can be combined with other ink product lines). Cost of label is dependent upon the complexity, label material and number of colours within the design. Standard text added to artwork reads: "Made in USA, Keep Away from Children." Please ask your customer service representative for more details.

## The Presidential System

The Presidential System's exceptional user convenience is what sets it apart from the competition.

Digital communication from the console to your flashboard eliminates the bulky and complicated cabling system between the components. The Presidential Bingo System was specially designed with the operator in mind. For example, all system controls are placed on a single control panel. The Presidential system will provide years of trouble-free service.

# Senator Bingo Console

A bona fide classic, the Senator™ bingo console possesses a stately elegance. Its dependability & ease-of-use make it an excellent choice!

The classic Senator bingo console, with its beauty of rich, red oak veneered cabinetry, is sanded, stained and varnished by hand. The built-in bingo blower, with its large, wrap-around acrylic window, offers a view from two sides as well as from the top.

A built-in timer with an LED display and audible alert was designed with the consistent timing of ball calling in mind.

## The Senator System

The Senator System is designed to grow with your game. This low voltage system provides the ability to easily hook up and disconnect as many satellite flashboards as your bingo games require.

Exciting standard features of this system include a built-in ball timer with an audible "beep" alert and a large LED display that indicates to the caller when to call a ball. The Senator Bingo System is a simple to operate and affordable, plus it has built-in Capitol® quality and dependability.

# Liberty Tabletop Bingo System

The Liberty™ Tabletop Bingo System is preferred by many game operators because of its size and lightweight design. The Liberty's portability makes it easy and convenient to set up, use and store!

- › Great for areas with limited space
- › Ideal for small, informal settings such as recreational facilities
- › Large wraparound display window for increased visibility
- › Does not require a flashboard
- › Blower can operate as a tabletop model when used independently, or as a floor model if used with the optional locking stand, equipped with non-skid casters

# Bingo Balls

Possibly the most important part of any bingo game and the focus of everybody's attention – determining who gets lucky, and who goes home empty handed. Such a vital part of the game shouldn't be taken lightly. AG/BZN's Samson® and Tru-Max™ bingo balls are universally acclaimed for durability, integrity and size consistency.

## Samson® Bingo Balls

Only AG/BZN's high quality Samson bingo balls are produced through a sophisticated process that guarantees every ball meets regulatory standards for size and weight.

## Tru-Max™ Bingo Balls

With a long lasting, protective, anti-static clear coat, the double numbered Tru-Max bingo balls are the preferred choice for the E-max® line of bingo consoles!

# Access™ Flashboards

Enhance the thrill of the game of bingo with our contemporary style flashboards, now available with a brighter, whiter LED lighting option! With more features, the latest technology and the largest variety in the industry, our bingo flashboards will meet the needs of any game!

Our three different flashboard models, available in a variety of number sizes, will accommodate bingo halls large or small. Operators can choose from our readily available standard 4" flashboards, or opt for one of our custom build options, available with 2" or 8" tall numbers.

## Standard Models

Choose from Dollar Value, Game Indicator and Numbers Only models available with 4" numbers.

## Special Order

Most of our flashboard models are available with 2" and 8" numbers as a custom build option.

## New LED Lighting

With our contemporary style and new LED lighting option, Access Flashboards easily outshine the competition.

## Simple Operation

User-friendly operation makes Access Flashboards the preferred choice among game operators everywhere.

## Convenience

Sliding acrylic panels allow for easy service. Recessed handles allow for easy transport and installation.

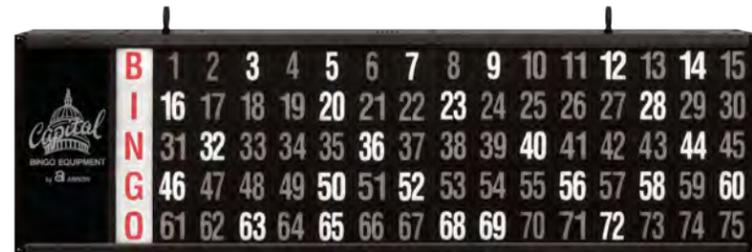

## Durability

All of our flashboards have a long lasting, high quality paint finish and built-in eyebolts for easy hanging.

# Access™ Flashboards

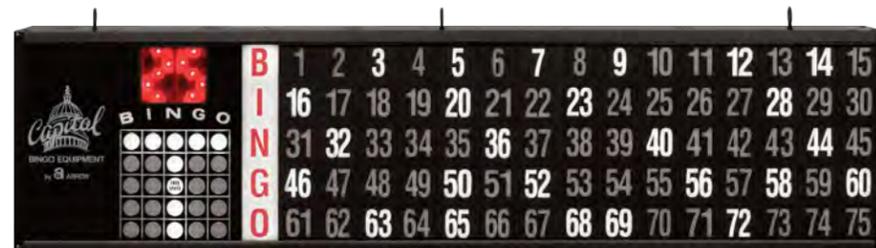

## Numbers Only

The Number Only flashboard makes it easy for players to identify what to play by flashing the last number called. Sliding front acrylic panels provide for easy access for service.

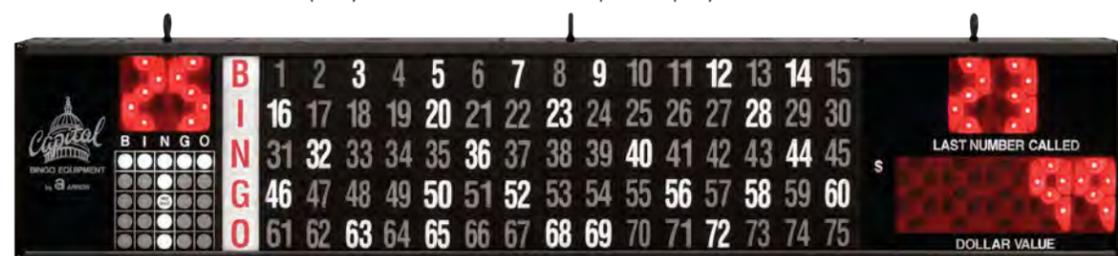

## Game Indicator

In addition to flashing last number called, the Game Indicator flashboard displays game patterns and the game number *or* total number of balls called.

## Dollar Value

The Dollar Value flashboard includes all the great features listed above, with the addition of built-in displays for dollar value prize payouts and the last number called.

## Tear-Opens / Bonanza Flashboard

Our 4" Tear-Opens™ and Bonanza® flashboards have a distinctive blue acrylic, high-contrast background, and are designed to be played with our Tear-Opens and Bonanza bingo paper.

Already have one of our Capitol 4" Access flashboards? We offer the Tear-Opens / Bonanza blue acrylic panels as an add-on to your existing unit. **ITEM NOs. 48131 (low side) & 41832 (high side)**

## LED Lighting

Give your players that wow factor in your hall! Don't wait until someone asks you, "why doesn't your flashboard light up like all of the others?"

Our LED lighting option gives flashboards a newer & brighter appearance, making them easier to read — your players will notice the difference immediately! And the best part? You save money with the longer lifespan & lower power consumption of the LED bulbs.

# eBOT Dispenser

The thrill of Popp-Opens has evolved with stunning graphics & animation!

The revolutionary eBOT™ (*electronic Break Open Ticket*) Dispenser engages players in the winning experience with on-screen action and sound to complement the play of Popp-Opens® pull tabs!

When a player purchases a pull tab, the game's symbols are revealed on the 21.5" touchscreen, while the printed ticket is scanned & dispensed into a collection bin. The tickets are automatically discarded within the unit after a player cashes out or leaves, eliminating the cleanup of loose tickets.

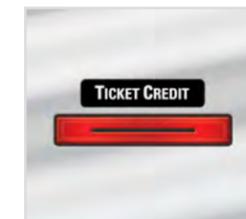

## Features

- › Quick and easy transactions
- › Variable pricing per column
- › Sales totals are securely tracked
- › Ticket deals can be spread across multiple machines
- › All machines at a location are networked to a site game server

## Multiple Configurations

Depending on the legality in some areas, certain features of the eBOT may or may not be right for you. The eBOT is available in several configurations so that you can find the model that best fits your needs.

### Ticket Reader

This slot can read a barcoded ticket, verify it, and apply any available credits.

### Voucher Printer

Prints secure, bar-coded vouchers that can only be redeemed at the origination site.

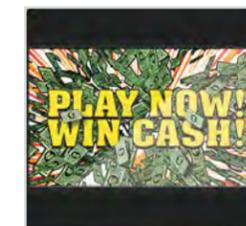

### Bill Validator

Accepts most bill denominations and reads ticket vouchers. Includes internal lock.

### Keypad

Players can enter numerics and confirm, correct, or cancel the value added.

### Header Display

Rounded header features a 21.5" screen to display advertisements.

## Matching On-Screen Graphics

As each pull tab is verified and dispensed from the eBOT, the game's symbols are revealed on-screen with colourful graphics, animation and sound. Players are alerted instantly if they have a winning ticket!

## Flashboard Adapter

For use with Arrow's Game Indicator and Dollar Value flashboards, the Flashboard Adapter converts one bingo console input signal into four separate amplified output signals. If one flashboard output were to fail, the other flashboard outputs will remain operational.

## Bingo Data Converter

The Bingo Data Converter is a state-of-the-art systems conversion and testing tool. The Data Converter allows non-compatible bingo systems to work with each other. Most bingo systems can be upgraded or simply added to without changing any existing flashboards.

## Digital Game Pacer

The Digital Game Pacer offers the perfect solution for calling your bingo game at just the right speed. The unit features a large countdown LED display, a 1-99 second adjustable timer, and an audible "beep" to pace your game. This device is powered by a 120-volt pack.
